### Cal OES COASTAL REGION

#### **Roadway Damage due to Winter Storms, Humboldt County**

On 12/19/16 at 1712 hours the California State Warning Center (CSWC) received a Proclamation from Humboldt County declaring a local emergency due to damage to roadways caused by recent storms and flooding. There are approximately 6 roads in the area that have either sustained damage or are in danger of sustaining damage due to landslides caused by recent winter storms to include California Disaster Assistance Act (CDAA).

- Humboldt County has requested all available recovery assistance from the State and Federal Government.
- The Cal OES Fire Duty Officer (FDO) and Cal OES Coastal Region Duty Officer (CDO) are in contact with Humboldt County and providing updates as they become available.
- On 12/21/16, Board of Supervisors (BOS) Minute Orders and a CDAA Request Letter was received for the Proclamation from Humboldt County for storm damages.

#### **Proclamations**

On 12/22/16 at 1248 hours, a Resolution was received from the City of Fort Bragg due to a winter storm event.

- The City is requesting any and all available State and Federal Assistance, CDAA, and a Gubernatorial Proclamation.

### Cal OES INLAND REGION

#### **Train Derailment, Lathrop, San Joaquin County, SPILL: 16-7739**

On 12/22/16, at 1233 hours the California State Warning Center (CSWC) received a report from Union Pacific Railroad (UPRR) advising that a single railcar derailed upright in Lathrop, San Joaquin County.

- There was no release of hazardous materials and no reported injuries.
- The CSWC made all appropriate notifications per SOP.

# WEATHER OF CONCERN

## Weather of Concern

- Be prepared for wintry travel beginning Thursday night and lasting through the Saturday afternoon. Snow levels will start out around 4500 feet Thursday night and continue on a downward trend to the valley floors away from the coast and south by Saturday morning. Snow showers will begin to taper off Saturday evening and dry conditions are expected through Monday afternoon.
- A Pacific Storm is expected to move in Friday and will bring wind and rain along with high elevation snow. A winter storm warning is in effect for the Southern Sierra and is expected to bring 1-2 or more feet of snow near the crest and 4 to 9 inches above 6000 feet. A winter weather advisory is in effect for the mountains for 2 to 4 inches above 6000 feet, 4 to 8 inches above 8000 feet and up to a foot at the crest.

# WEATHER SYNOPSIS BY REGION

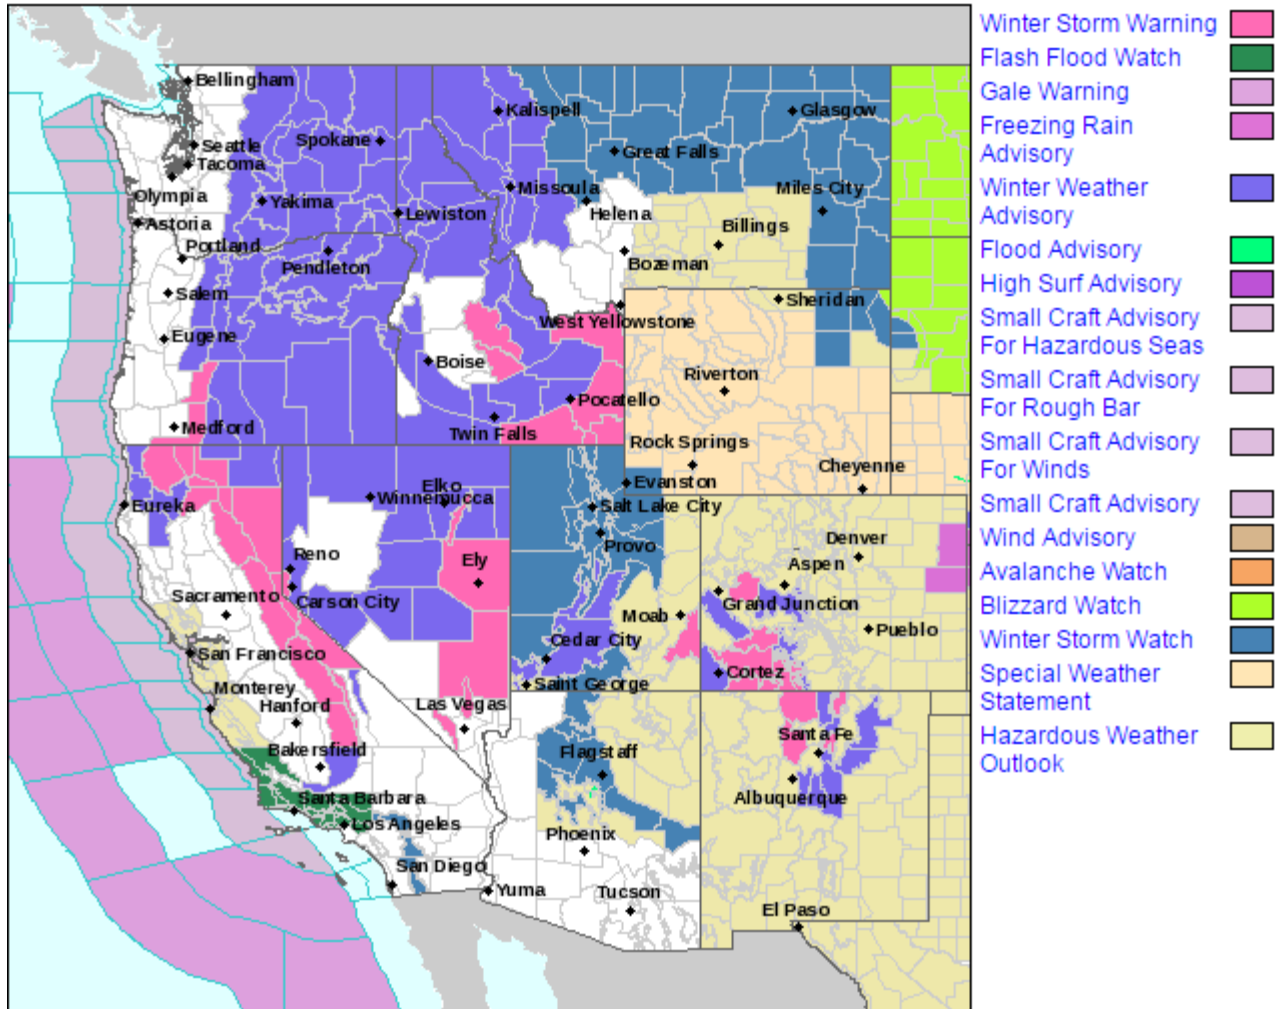

## **NORTHERN CALIFORNIA**

Today will be another dry and mild day across the region. However, the next Pacific frontal system will reach the north coast late this evening. As the system approaches clouds and southerly winds will increase. Moderate to brief heavy precipitation will spread over western areas tonight, reaching the Bay Area and northern end of the Sacramento Valley by early Friday and all eastern areas by noon. The main front will be at the tail end of the main band of precipitation. Showers will continue behind the front, with more coverage over the higher terrain. Wind-prone areas will see southerly gusts reach 30-40 mph along and ahead of the cold front on Friday. Snow levels will start out between 4000-5000 feet, but fall to 2000-3500 feet once the front passes. The last showers will end in the eastern mountains midday Saturday. On Christmas Day a weak Pacific low pressure system will move toward Central California. It will spread light rain showers into the western and southern portions of the region late in the afternoon. Other areas will remain partly cloudy, cool, and dry.

## **SOUTHERN CALIFORNIA**

An area of low pressure moving inland over Northern Baja will bring showers to Southern California today. Most locations over Southern California will receive an additional quarter inch to an inch of rainfall. A storm from the Gulf of Alaska will bring showers to the northern portions of Central California Friday morning. The showers from this storm will reach Southern California by Friday evening. Some light showers will be possible across Southern California in between systems. Showers from the Gulf of Alaska storm will continue across the region through Saturday evening. Most foothill and mountain locations will receive between 2 and 4 inches of rainfall and most coastal and valley locations will receive between 1 and 2 inches of rainfall Friday and Saturday. The snow level will drop to around 3,000 feet by Saturday morning. Southerly winds of 20 to 40 mph with gusts to 60 mph will surface across the wind prone mountain and desert areas Friday afternoon and Friday evening and then become westerly with the same speeds Saturday. Temperatures will be near normal through Friday, with upper 30s and 40s across the mountains and mid 50s to mid 60s in the valleys. Temperatures will become well below normal Saturday, with mid 20s to mid 30s across the mountains and 40s to low 50s in the valleys. A weak ridge of high pressure will bring a little warmer temperatures Sunday, but temperatures will remain quite a bit below normal.
